

Students for Science

□ Students For Science is a student-led initiative, founded in response to RFK, dedicated to upholding the integrity of science, empowering young people in science-related advocacy, and providing a youth perspective on science-centered issues.

From climate science to health science and everything in between, Students For Science is young people in fields ranging from biology to politics.

□ Students For Science is holding an info session this Thursday 10/30 at 8pm ET / 5pm PT at the following link: bit.ly/studentsforscizoom

□ Join to learn how you can help empower students to hold a test tube □ in one hand and a microphone □ in the other!!
